Profile Summary

Passionate **Backend** Developer skilled in **Java, Python, and AI** integration, with a strong foundation in Spring Boot, Microservices, and Cloud Development. Adept at building scalable, high-performance applications while leveraging AI for process optimization. Committed to continuous learning and delivering impactful software solutions.

Technical Skills

- **Programming Languages:** Java, Python, SQL, HTML/CSS
- **Frontend:** React.js, Tailwind CSS, Bootstrap
- **Backend:** Spring Boot, Spring Security, Spring Cloud, Micro-service Architecture, RestAPI
- **Database:** MongoDB, PostgreSQL, MySQL, Oracle
- **DevOps:** Azure, Git, GitHub, Jenkins
- **AI/ML:** NLP, Machine Learning, AI Integration in Java

Education

B. Tech Information Technology (2022 – 2026)
P. A. College of Engineering and Technology, Coimbatore | **CGPA – 8.84**

Higher Secondary School Certificate - 12th Grade (2021 – 2022)
N. C. P Municipal Higher Secondary School, Tiruppur | **Percentage – 85.6%**

Secondary School Leaving Certificate - 10th Grade (2019 – 2020)
N. C. P Municipal Higher Secondary School, Tiruppur | **Percentage – 82.2%**

Projects

- SAMS (PACET) – Student Attendance Management System**
 - Automated attendance tracking and real-time reporting.
 - **Tech Stack:** HTML, CSS, JavaScript, Php, MySql Database.
- E-commerce Platform - Server-Side Rendered Shopping Site**
 - Product management, shopping cart, secure payments.
 - **Tech Stack:** Java, Spring boot, Payment Integration(Razorpay), MySql.
- AI-Powered Chatbot System**
 - Built an NLP-based chatbot for automated query resolution.
 - **Tech Stack:** Java, Stanford NLP / OpenNLP, Spring Boot, MySQL (optional for storing chat logs), JavaFX (for frontend or CLI interface).
- Movie Recommendation System**
 - Suggests movies using collaborative filtering algorithms.
 - **Tech Stack:** Java, Spring Boot, MySQL (for storing ratings), Collaborative Filtering Algorithm (Cosine Similarity / Pearson Correlation), JavaFX (for frontend).

Internship Experience

- Python with Django – Internship, Net Tel Solutions (June 2024)
- Developed REST APIs for a web application.
- Developed the Travel Assistance Website using Django framework.
- Gained hands-on experience in Django framework & database management.

Certification

- PG Diploma in Computer Applications – TNDS Dharapuram.
- OOP in Java – Simplilearn.
- Career Skills in Software Development - LinkedIn learning.
- 30 days Full Stack Development Masterclass – NoviTech R&D.

Engagement & Activities

- **Joint Secretary** – Association of IT (2024-2026)
- **Coordinator** – ISTE, Entrepreneurship & Higher Education Cell (2023-2026)
- Presented Paper on Network Monitoring System at **National Conference**, PACET.
- **Finalist** – NAF's Uzhavu Hackathon, Shastra IIT Madras (2024)
- Attended IoT-based Arduobotics **Workshop** – Sponsored by CSIR (2024)
- Active participant in Chess & Carrom competitions during **college sports** events

Achievements

- **1st Prize** – Techgenesis 2K25 (Inter-college Project Contest, PACET)
- **2nd Prize** – Code-Vault (Coding Contest, PACET, 2024)
- **3rd Prize** – Code Debugging (Nehru College of Management, 2024)
- Solved **200+** Leetcode problems.

Soft Skills

- Problem Solving & Critical Thinking
- Leadership
- Team Collaboration
- Communication
- Interpersonal Skill
- Adaptability & Learning Agility
- Time Management

Areas of Interest

Microservices Architecture, API Design & Management, Database Management & Optimization, Cloud-Native Development, DevOps tools & CI/CD, Java Frameworks and Tool, AI-powered Automation, Geospatial Data APIs & Backend Services.
